ME TRADESMAN and EOD & S - Entry Requirements: Maths D/3 English D/3 Other D/3 or equivalent

PLANT OPERATOR
Tasks: Operate and maintain earth moving and construction vehicles. Servicing and minor repairs to equipment, documentation and basic surveying.
Licences: Cat B, C, E, D & H.

BRICKLAYER & CONCRETOR
Tasks: Construction tasks, including brickwork, planning, setting out, scaffolding and concreting. Improving existing infrastructure and constructing new buildings from the foundations up.
Licences: Nil.

FABRICATOR & WELDER
Tasks: Capable of shaping metal by forging, bending and pressing. Fabricate and repair plant and machinery. Experience reading drawings, producing technical drawings and drafting.
Licences: Nil.

CARPENTER & JOINER
Tasks: Manufacture, modify or repair parts of buildings that require timber products, using woodworking machinery and hand tools. Read design drawings and design timber structures. Maintenance and repair joinery and carpentry. Able to use power saws, drills, disc cutters, routers and other woodworking machinery.
Qualifications Gained: Level 3 & 5 Diploma in Carpentry & Joinery - Carpentry & Joinery - NVQ Level 2 in Apprenticeship in Wood Occupations (Site Carpentry) - NVQ Technical Certificate.
Licences: Nil.

BUILDING & STRUCTURAL FINISHER
Tasks: Complete all building and structural finishing tasks. Produce accurate survey plans of land and inshore area. Design buildings, engineering structures and geographic support.
Qualifications Gained: Level 2 & 3 Diploma in Construction Draughtsman (Military Engineering).
Licences: Cat B.

LOGISTICS SPECIALIST
Tasks: Observe, control, maintain and issue resources for construction and combat engineering tasks (construction materials, chemicals, bricks, specialist tools).
Qualifications Gained: Level 2 in Warehousing and Storage - NVQ Technical Certificate.
Licences: Cat C, D and CDF.
*Entry Requirements: Maths D/2 English D/3 Other D/3 or equivalent

EOD & SEARCH
Tasks: Exploitation Ordnance Disposal and Search specialists are trained to locate and safely dispose of a variety of explosives devices dropped from the air, found in the ground or sea. These include bomblets, bombs, mines, rockets and chemical and biological weapons.
Qualifications Gained: Level 2 & 3 in Explosive Ordnance Disposal (EOD) - NVQ Level 3 in Emergency Response.
Licences: Nil.

ME SUPPORT SPECIALISTS - Entry Requirements: No Minimum Level*

CSS COMMUNICATIONS
Tasks: Drive and operate a variety of vehicles on and off-road. Set up, test and maintain. Transport personnel and equipment. Can be called upon to use specialist equipment in combat, such as tank transportation, automatic bridging equipment and self-launching dumpling truck operation.
Qualifications Gained: Level 2 in Communication & Telecommunications - NVQ Technical Certificate.
Licences: Cat B.

COMMANDO
The Elite are amongst the toughest soldiers in the world. They work alongside other members of the Royal Marines Commandos to defeat the enemy.

DESIGN DRAUGHTSMAN
Tasks: Design buildings, engineering structures and geographic support. Produce detailed and accurate plans. Maintain and repair joinery and carpentry. Able to use power saws, drills, disc cutters, routers and other woodworking machinery.
Qualifications Gained: Level 2 & 3 Diploma in Construction Draughtsman (Military Engineering).
Licences: Cat B.

ME SPECIALIST - Entry Requirements: Maths C/5 English C/4 Other C/4 or equivalent

SURVEYOR
Tasks: Complete land and hydrographic surveying to produce accurate survey plans of land and inshore waters as a basic for the design of roads and other structures.
Licences: Cat B.

DRIVER
Tasks: Operate and service large armoured vehicles designed to control enemy advance by quickly laying bridges or ploughing through minefields. Vital to the battlefield winning scenario.
Licences: Cat B, C, D and H.

ARMOURED ENGINEER
Tasks: Assemble, install, maintain and repair hot and cold water systems. Essential training for a diverse range of tasks including providing emergency services and repairing equipment.
Licences: Nil.

ELECTRICIAN
Tasks: Assemble, install, maintain and repair electrical and control systems. Whilst providing emergency services and repairing electrical systems.
Qualifications Gained: Level 3 in Electrical & Mechanical Engineering (Electrician) - Level 3 in Electrical & Mechanical Engineering (Electrician) - Level 3 in Electrical & Mechanical Engineering - Level 3 in Electrical & Mechanical Engineering - Level 3 in Electrical & Mechanical Engineering - Level 3 in Electrical & Mechanical Engineering.
Licences: Cat B.

ME SPECIALIST - Entry Requirements: Maths C/5 English C/4 Other C/4 or equivalent

CONSTRUCTION MATERIALS TECHNICIAN
Tasks: Provide technical guidance and instruction on materials in use during construction tasks. Investigation and testing of materials such as soils, aggregates, concrete and their properties before and after use.
Qualifications Gained: Level 2 & 3 Diploma in Construction Materials Technology.
Licences: Cat B & C.

DESIGN DRAUGHTSMAN ELECTRICAL & MECHANICAL
Tasks: Design a range of systems including heating, water and electrical power. Produce detailed and accurate plans. Maintain and repair joinery and carpentry. Able to use power saws, drills, disc cutters, routers and other woodworking machinery.
Qualifications Gained: Level 2 in Electrical & Mechanical Engineering (Electrical & Mechanical Engineering) - Level 2 in Electrical & Mechanical Engineering - Level 3 in Electrical & Mechanical Engineering - Level 3 in Electrical & Mechanical Engineering.
Licences: Cat B.

ME TECHNICIAN - Entry Requirements: Maths C/5 English C/4 Other C/4 or equivalent

FIT AIR CONDITIONING & REFRIGERATION
Tasks: Operate and maintain earth moving and construction vehicles. Servicing and minor repairs to equipment, documentation and basic surveying.
Licences: Cat B, C, E, D & H.

FIT AIR CONDITIONING & REFRIGERATION
Tasks: Operate and maintain earth moving and construction vehicles. Servicing and minor repairs to equipment, documentation and basic surveying.
Licences: Cat B, C, E, D & H.

FIT AIR CONDITIONING & REFRIGERATION
Tasks: Operate and maintain earth moving and construction vehicles. Servicing and minor repairs to equipment, documentation and basic surveying.
Licences: Cat B, C, E, D & H.

FIT AIR CONDITIONING & REFRIGERATION
Tasks: Operate and maintain earth moving and construction vehicles. Servicing and minor repairs to equipment, documentation and basic surveying.
Licences: Cat B, C, E, D & H.

FIT AIR CONDITIONING & REFRIGERATION
Tasks: Operate and maintain earth moving and construction vehicles. Servicing and minor repairs to equipment, documentation and basic surveying.
Licences: Cat B, C, E, D & H.
